Lifetime World

Lifetime World

Transitioning to the Age of Post-AI Electrification

Problem and Solution

1

Lifetime World guides families and businesses in adapting to the rapidly changing landscape of electrification. Today 57 percent of China energy is produced with Coal. US 54 percent.

We can help with Lifetime World ecosystem, DWS IQ platform and its AIQ Solutions.
We can measure and manage with Coal and other Fossil Certificates. We can foster innovation with Lifetime World Coin prosperity program.

Wealth Generation

3

Lifetime World's innovative DWS IQ platform and its solutions makes it easy for families and businesses to generate wealth while reduce carbon footprint.

Livelihood Independence transition to full electrification using Lifetime AIQ solutions.

By investing into sustainable solutions and participating in the LTW currency ecosystem, users can unlock new revenue streams and build long-term financial security with the manufacturing partner solutions.

Skills to Livelihood Independence

2

Through tailored training and educational programs, Lifetime World empowers individuals and communities to develop the skills needed to thrive in the full electrification economy. We aim is to stay under 1,5 degrees Celsius in the warming.

From renewable energy installation into the operation of smart home technologies and forward to community **livelihood independence**,

we equip Lifetime World members with the knowledge and expertise to succeed.

Lifetime World

Carbon Footprint

DWS5 the Distributed Intelligence Platform

Carbon Footprint reduction – measure & manage

Lifetime World's Data Factory and its AIQ Foundation Model with Agent workflows use AI and Quantum HCP in streamlining processes, improving materials, and creating better products that make it easier migrating from fossil into renewables processes with Quality Assurance and increased Productivity. By leveraging AI agent automation and Robotics, DWS AIQ Solutions help businesses optimize their operations, reduce costs, while reducing carbon footprint (+SDGs).

Collaborative Prosperity Ecosystem – Lifetime World

Lifetime World provides individuals with opportunities to upskill and acquire new competencies.

Through our educational programs we build solutions that transform energy, supply chain, Renewables and hydrogen as sourcing, improving food security, heat and cooling security.

Learning a new sustainable way of living (Society 5.0).

Building Sustainable Wealth

Lifetime World is a collaborative ecosystem where families, businesses can on DWS IQ with AIQ Solutions, Coal Certificates create prosperity.

LTW enable organizations measure and manage their carbon footprint as value. This enables them create prosperity by selling and buying Certificate Coins thus reducing their Carbon footprint and increasing their value.

Torreviejas.eu

The Community Engagement

Lifetime World’s strong community engagement empowers individuals and organizations alike to collaborate and share knowledge, build value with LTWs.

By facilitating the exchange of ideas and best practices, we inspire collective action towards a sustainable transition, ensuring that no one is left behind in the journey towards a greener tomorrow.

Sustainable Wealth for future

Lifetime World's mission is to create a future where prosperity and responsibility are intertwined.

By aligning economic growth with environmental stewardship, we enable families and businesses to thrive while actively contributing to the long-term sustainability of our planet.

The LTW Currency Ecosystem

Lifetime World

Invest into your future – Sustainable LTWs

LTWs

Lifetime World's **LTW Coin** provides a secure and transparent currency for individuals and businesses to invest into sustainable solutions, generating financial returns and contributing to their prosperity.

Earn $LTW when you buy sustainable product on LW. You can use **$LTW** to update your investment or sell it*.

Investors can integrate their **$LTW** with their existing ESG investment portfolios.

LTW Coins are **a Reward System**

Lifetime World’s Reward system based on $LTW offer incentives to clients who stay loyal to manufacturers.

On Lifetime World Wallet responsible investment taken is rewarded with LTW Coin further driving the transition next-step to a **more sustainable future.**

Lifetime World

LTW COIN

As the Lifetime World ecosystem grows and the demand for sustainable solutions increases, the value of the LTW coins is **expected to appreciate**, ensuring **long-term financial stability**.

* In a tba crypto exchange $LTW can be exchanged.

Lifetime World

Lifetime Happiness: The Sustainable Transition

Responsible Consumption

Lifetime World encourages a shift in mindset, where individuals and families embrace responsible consumption patterns that prioritize sustainability and reduce their environmental footprint.

Renewable Investments

By channeling their resources into sustainable investments through the LTW currency ecosystem, participants can actively contribute to the development of clean energy solutions and eco-friendly initiatives.

Collective Prosperity

The combination of responsible consumption and sustainable investments generates a cycle of collective prosperity, where individual actions translate into a more sustainable and equitable future for all.

Lifetime World

Empowering the Next Generation Wealth & Happiness with Lifetime World

Educational Initiatives

Lifetime World's educational programs, grants, and workshops equip the younger generation with the knowledge and skills needed to navigate the evolving landscape of sustainability, technology, and responsible leadership.

Entrepreneurial Incubation

Lifetime World's incubator and accelerator initiatives provide a supportive environment for young entrepreneurs to turn their sustainable ideas into viable businesses, driving innovation and creating new avenues for economic growth as Certified Sustainability Partners.

Mentorships and Grants

Through mentorship programs, Lifetime World connects young individuals with experienced professionals and industry leaders, fostering the development of the next generation of innovators, entrepreneurs, and sustainability champions.

Generational Collaboration

By facilitating intergenerational collaboration, Lifetime World ensures that the wisdom and experience of older generations are passed down, while the fresh perspectives and bold ideas of the youth are valued and incorporated into the collective vision for a sustainable future.

Lifetime Group

Independent Software Vendor ISV

- Innovation, cloud, sustainable corporate strategy, hydrogen, electrification
- Real customer benefits (revenue) that we **can co innovate**
- **(with Open AI, Google)**
- Quality Assurance with Generative AI
- Productivity and Quality Shift realization
- Google Cloud, Amazon Web Services, Open Source LLM, Hugginface, OpenAI
- Replit + Google Cloud + GAI Agent Automation
- Building Services, Platform, Apps with Service Design above expectations
- Growth for international industrial clients; critical road mapping
- Lifetime Consulting offers advisory services for insightful enterprises that are shifting into ESG reporting (Scope 1,2,3)
- Offer strategic climate action visionaries market position.

Lifetime Group

Business Case: Offshore Wind Farms deliver into Ammonia

- Ammonia makes it easy for transporting H2.
- **DWS IQ Brain offer iterative best practices.**
- DWS AIQ Solutions increase productivity and safety when combined to the market leading industry solutions and products.
- Copiloting Mergers and acquisitions easy.
- KBR Hydrogen and Ammonia cracking units. In this largest capacity ammonia cracking plant announced to date, clean hydrogen will serve a planned power plant in Daesan, paving the way for large-scale sustainable hydrogen utilization. Ammonia cracking, the process to convert transported ammonia back to hydrogen, is a key enabler to achieving the world's decarbonization target.
- **"Hydrogen is the Only thing we can afford to burn."**

Putting a price on carbon

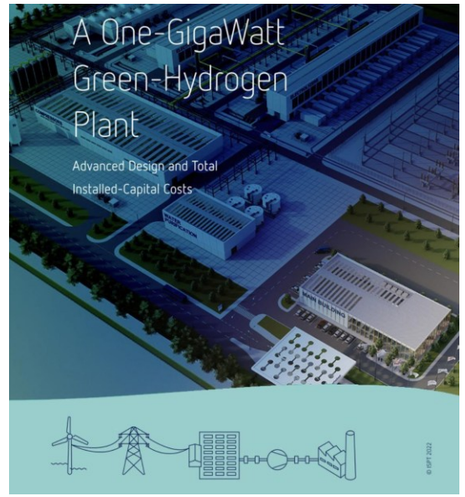

We updated the **EU Emissions Trading System** to cover more activities, thereby motivating more economic sectors to implement reforms towards the clean transition.

This generates more revenues that will be reinvested in innovation, climate action, and social support, for example through the Innovation Fund, the Modernisation Fund, and the Social Climate Fund.

Lifetime Group

Business Case: Electrolysis Plant

- Hydrogen Projects : Case Study Lingen
- https://www.rwe.com/en/research-and-development/hydrogen-projects/
- Lingen pilot H2 electrolysis plant
- Green hydrogen to be produced for the first time. Hydrogen is key to a successful energy transition going forward. Electricity generated from renewables is converted into green hydrogen, an energy carrier and feedstock that could help to significantly reduce CO_2 emissions well beyond the electricity sector.
- The construction of a national hydrogen infrastructure under way and develop a powerful European hydrogen market.
- Offshore Wind -> Electrolysis Plant -> Hydrogen Infrastructure -> Green Steel -> Google Infrastructure -> Byproduct Water H20 <- Lifetime Innovations - ground truth -data

Lifetime Group

VERACITY
by DNV

Business Case: Maritime Industry

- Maritime Industry and the Ammonia & Methanol Projects
- https://www.rwe.com/en/research-and-development/hydrogen-projects/
- Lingen pilot H2 electrolysis plant
- Green hydrogen to be produced for the first time. Hydrogen is key to a successful energy transition going forward. Electricity generated from renewables is converted into green hydrogen, an energy carrier and feedstock that could help to significantly reduce CO_2 emissions well beyond the electricity sector.
- The construction of a national hydrogen infrastructure under way and develop a powerful European hydrogen market.
- Offshore Wind -> Electrolysis Plant -> Hydrogen Infrastructure -> Green Steel -> Google Infrastructure -> Byproduct Water H20 <- Lifetime Innovations - ground truth -data

Lifetime Group

Business Case: Green H2 Steel Factory (NREL)

- “**IF it is not steel, it is not REAL.**”
- value chain transformation into the electrification.
- **innovation management DWS IQ Brain**
- Hydrogen can turn steelmaking green (NREL).

Lifetime Group

Lifetime Digital Workspace

Cloud Ready Teams | Digital Workforce

DWS IQ platform = Investment Security

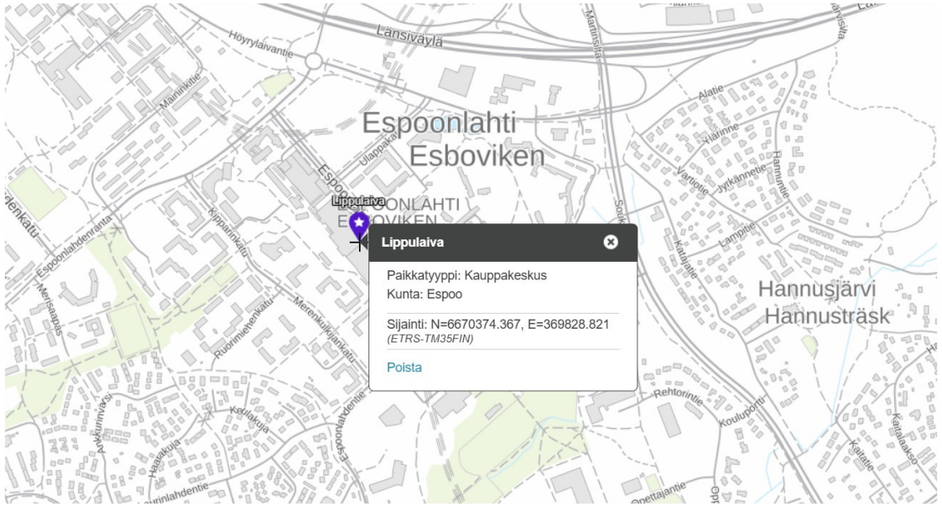

- DWS IQ Brain help our Clients in the process of transition into the AI electrification age.
- Transition post fossil fuels into H2, Renewables, new energy storage, transmission solutions and products that must have AI methods meet 5 critical elements that define industry-grade AI: verifiability, usability, generality, robustness, and accuracy, to be adopted in the engineering teams (avoid bias and hallucinations).
- Deep integration into Industrial data, Intelligent supply chains, hydrogen ecosystem, cloud/AI based solutions.
- New Globalisation strategy and implementation is ongoing.
- Start with; Clients are creating process of ESG Reporting (and investing)
- Lifetime Group offers Visionary Climate and Land Erosion solutions, services that create strategic enterprise level competitive edge, operational excellence and excellent QA with AI.

in the EU

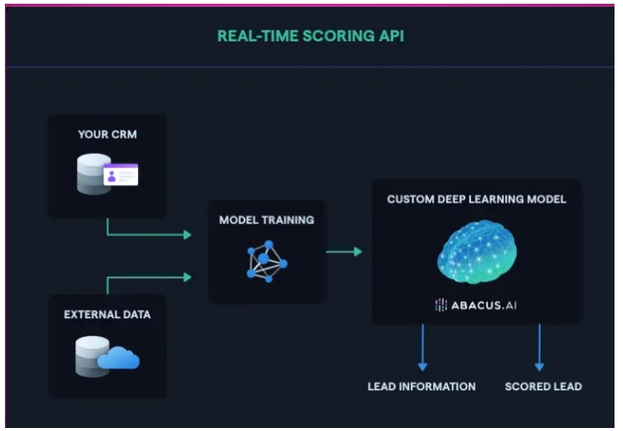

Green Renewables Policies, like The European climate law regulation turns the political ambition of reaching climate neutrality by 2050 into a legal obligation for the EU. The EU legal considerations with Lifetime World include

- EU AI ACT, NIS 2, GDPR, Net Zero,
- the EU Civil Protection Mechanism supports countries in Europe and beyond when struck by climate-related emergencies.
- Protecting vulnerable human workers and societies in the transition.

We have mobilised private and public funding that support the deployment of low-carbon energy sources and that increase the energy efficiency of buildings.

An estimated €275 billion of NextGenerationEU and REPowerEU funds will support clean investments, and €118 billion of Cohesion Policy until 2027 are earmarked for the clean transition.
