TRUSTED BY OVER 1000 CUSTOMERS WORLDWIDE

WHY AIVEN ?

	Aiven	Hyperscaler	Self-Managed
Operational Simplicity	✅ **Effortless Management:** Free your teams from infra burden. Focus on innovation, not maintenance.	❓ Hidden Complexity: Requires specialized skills & constant oversight.	⛔ Huge Burden: Dedicated teams needed for setup, maintenance, upgrades.
Reliability & Uptime	✅ Unmatched 99.99% SLA: Guaranteed availability for mission-critical apps. Automated failover & disaster recovery.	👍 Good, but Less: Typically 99.9% SLA. More downtime risk.	🚧 Depends on Your Teams: Reliability is your internal responsibility.
Scalability & Performance	✅ **Seamless Scaling:** Scale up/down without downtime. Handle any workload, optimize performance.	📈 Vertical Scaling: Often causes downtime. Manual rebalancing.	🐢 Slow & Costly: Limited by hardware, complex to scale.
Cost Optimization	✅ **Transparent & Significant Savings:** All-inclusive pricing, no hidden fees. Reduce TCO, leverage existing cloud credits.	💸 Hidden Fees: Extra charges for networking, features, egress.	💰 High TCO: Infrastructure, personnel, unforeseen issues.

CUSTOMER

AIVEN SUPPORTING YOUR GOALS

Katana, inventory management SW
- key problems

- Urgency for real-time data across e-commerce, accounting & production systems
- Lack of data analytics & data aggregation
- Slow data query runtimes

Solution

- Kafka for real-time data flow
- ClickHouse for analytics

NEXT STEPS
